WARRANT.

To Charles I. Chase, a Constable in the Town of Baldwin, in
the County of Cumberland, Greeting:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the said Town of Baldwin, qualified by law to vote in town affairs, to assemble at the Grange Hall at West Baldwin, in said Town, on the 11th day of March, 1918, at 10 o'clock in the forenoon, to act on the following articles, to wit:

1st. To choose a Moderator to preside in said meeting.

2nd. To choose a Clerk.

3rd. To see if the Town will have one or more Road Commissioners.

4th. To choose all necessary town officers for the year ensuing.

5th. To see if the town will grant and raise such sums of money as may be necessary for the maintenance and support of schools and the poor, and repair of roads and bridges, and to defray all other town charges for the ensuing year.

6th. To see what sum of money the town will raise for memorial purposes,—and to choose a Committee to expend the same.

7th. To see if the Town will vote to raise the sum of \$200 for the purpose of repairing the schoolhouse at North Baldwin.

8th. To see what sum, if any, the Town will vote to raise, in accordance with the provisions of Chapter 154 of the Public Laws of 1917, for the construction of a State Highway extending from the point where the highway, occupied by the railroad tracks of the Cumberland County Power & Light Company, crosses the town line between Westbrook and Gorham; thence in a general northwesterly direction along the direct road through Gorham Village, West Gorham, Standish Village, past the easterly shore of Watchic Pond, through Steep Falls, East Baldwin, past the residence of R. F. Chase, through West Baldwin; thence past Hiram Falls to the town line between Baldwin and Hiram.

9th. To see if the Town will vote "Yes" or "No" on the question of appropriating and raising money necessary to entitle the Town to State Aid, as provided in Section 19 of Chapter 25 of the Revised Statutes of 1916.

10th. To see if the Town will appropriate and raise the sum of \$522.15 for the improvement of the section of State Aid road as outlined in the report of the State Highway Commission, in addition to the amounts regularly raised for the care of ways, highways and bridges; the above amount being the maximum which the Town is allowed to raise under the provisions of Section 18, Chapter 25, of the Revised Statutes of 1916.

11th. To see if the Town will vote to raise \$300 for patrolman for State Aid highway.

12th. To see if the town will vote to raise \$100 per mile for the improved State Aid highway.

13th. To see if the Town will vote to raise \$50 per mile for repairing the unimproved sections of the State Aid highway.

14th. To see if the Town will vote to authorize the Selectmen to hire a sum not exceeding \$5,000 to melt the current expenses of the Town.

15th. To see if the Town will accept the list of jurors prepared by the municipal officers February 27th, 1918.

16th. To see if the Town will vote to take a new valuation and how.

17th. To see what action the town will take to acquire land for the purpose of enlarging the public cemetery situated at West Baldwin or to establish a new one, as the Town may see fit, and to act on any matter in relation to the same.

18th. To see if the Town will vote to raise money to repair the road leading from Cornish Bridge to the "Deacon's Fountain."

19th. To see what action the Town will take in regard to the Town Farm for the ensuing year.

The Selectmen give notice that they shall be in session for the purpose of revising and correcting the list of voters, at the Grange Hall at West Baldwin at 9 o'clock in the forenoon on the day of said meeting.

LORENZO NORTON,
FRANK HODGDON,
PHILIP H. WIGGIN,
Selectmen of Baldwin.

To the Superintending School Committee and Citizens of Baldwin:

I have the honor to submit herewith for your consideration my first annual report as Superintendent of your schools. As my work in your schools dates from July last, my report must of necessity be limited to that time.

At the opening of the school year in September, the Progressive Road to Reading was introduced, a system of teaching reading to beginners which is now being used in many of the best schools and up to the present has proved very satisfactory with your pupils. The work of the upper grades all depends upon an ability of the child to properly read and comprehend what he has read. Accordingly, it should be an object of the school system to lay much stress upon the teaching of reading to the primary children.

During the coming year some new text books should be introduced. There is in town no suitable book to aid the teacher in the teaching of language and grammar. The schools also should be supplied with a fuller, richer material for reading. Text books are the teachers' working tools and as such should be the best possible and at all times up-to-date.

Palmer method drills in writing are required. The advantages of the system when fully established are that it means a uniform method of instruction and style of writing in the successive grades, that teachers learn the system as well as the pupils so that the pupils see one style of writing only used; and that it encourages healthful and avoids unhealthful positions in writing. Its success depends upon the enthusiasm of the teacher and this we expect from them in large measure. With tact and persistence, good practical writing will be the only possible result.

An examination of the school buildings leads to the opinion that many changes are necessary. It is rare that a school room except of recent construction is correctly lighted. Authorities on this subject say that the total amount of window space should equal at least one-fifth of the floor space, and the light

should come only from the left or from the left and rear of the room. When you visit a school it will not require very expert knowledge to determine whether the children are seated in accordance with good healthful development. At this time of the year you can easily tell whether the air in the school room is conducive to good health and work. Many schoolhouses have desks for no child under ten years of age. Usually nearly all the children are under ten years of age. The feet of the child do not rest on the floor when he sits erect. He is quiet little of the time, for he must change his position to escape discomfort. The desk is too high for his arms. This places his shoulders out of proper position. Often it causes the right shoulder to be higher than the left, due to the fact that he writes with the right hand upon a desk too high. The unnatural position and the discomfort make continuous study impossible.

Each school should be equipped with suitable single seats and desks, properly arranged for accommodation of all pupils.

Few recognize the importance of an adequate supply of pure air without drafts.

There are ventilating stoves with fresh air intake and foul air extractor that can be installed in any school room, or the box stoves in use can be jacketed.

We have been fortunate this year in having three of the stoves jacketed. These jackets when properly installed for purposes of ventilation not only give an ample supply of warm fresh air but also save fuel.

To guard more effectively the health and morals of the pupils, there ought to be inside closets, or if outside, they should be connected by enclosed passageways with the school building or built with double doors and kept clean and free from snow.

The response of some of the school in the War Saving and Thrift Stamp Campaign has been most gratifying. When the children secure these stamps they are lending their small savings to the government at four per cent. interest compounded quarterly. One of the most valuable lessons that a boy or girl can learn is that of thrift. It is not the amount of collections that we are striving for, but rather to extend the habit of saving to as large a percentage of the pupils as possible. This is common ground where parent and school can co-operate. The present crisis is an opportunity to instill the spirit of patriotism as applied to children's activities.

The coming school year will necessarily be an expensive one. The teachers' wages, like all wages, must be advanced. The cost of books, paper, supplies, and repairs is much greater than in past years. The keynote of the coming year should be

co-operation. The School Board, Superintendent, teachers, pupils, parents and citizens must work together for the welfare and efficiency of the public schools. The future of our homes, town, state and nation depends upon a mental, moral, and physical welfare of the children of to-day.

In my short term of office I have received many courtesies from the people of Baldwin, and especially from the Superintending School Committee, for which I thank you.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Baldwin:

I hereby submit my annual report as superintendent of schools.

One of the most unfortunate circumstances of the present time is the tendency for teachers to leave the profession to accept higher salaries in other lines of work. To add to this circumstance, we have had to surmount the difficulties imposed by an unavoidable and dangerous epidemic. These conditions have added unprecedented difficulties to running the schools.

Not only have difficulties been encountered in shortage of teachers but also in increase in wages. Although the increase in the teachers' salaries is the largest item of our increased expense, we have found that there has been an enormous advance in the cost of all kinds of supplies and equipment. Some school supplies have increased as much as 300 per cent., yet there is no one who would care to advise dropping the standard of our educational organization and at the same time claim to be a true American citizen. It is the height of extravagance to save money at the expense of education, and without the generous support of the taxpayer we can hope for but little.

The teaching of patriotism is a very important function of the public schools. A much larger share of time and attention must be given to this subject. This will also call for some change in the choice of reading matter with a view to the introduction of a larger proportion of material of an interesting but patriotic character. Enthusiasm for flag and country must be aroused and kept alive. The ready response of the schools to every call to service during the year gives evidence that the schools are sound and loyal.

Teachers should always bear in mind the fact, that the penmanship of pupils is important because it carries a heavy load in correlation with other branches. In nearly every other branch taught in the public school curriculum, penmanship must be used and the pupil who writes a style embodying legibility, rapidity, ease and endurance, has a great advantage over the pupil who sits in an unhealthful cramped position and scribbles with his fingers.

In connection with the instruction in the Palmer Method writing, awards of various design and significance are offered to pupils.

The first is an attractive button given free when the first twen-

ty-five drills in the Palmer Manual are made fairly well with muscular movement.

There are also buttons given free to first and second grade pupils; one is the silver, and the other is the gold, star buttons. In addition to the above, the A. N. Palmer Co. offers for very small fees, which only cover the cost, a Progress Pin for one hundred drills; an Improvement Certificate for all of the drills in the Palmer Method Manual, written with muscular movement in fair style, and a Final Certificate which certifies that the pupil has mastered thoroughly the Palmer Method of Business Writing.

It is hoped that no teacher will be satisfied to close her work for the year without having obtained some of the awards offered. The teachers and pupils have taken hold of the Thrift Stamp Campaign with a fine spirit from the very first, with the result that Baldwin has a splendid record.

WAR SAVING REPORT.

School	No. Registered	Owning Stamps	Per Cent	Amount
W. Baldwin Grammar,	22	22	100	\$181.50
W. Baldwin Primary,	19	10	53	121.50
East Baldwin,	28	28	100	177.75
North Baldwin,	17	17	100	160.60
Burnell,	17	17	100	103.75
Pigeon Brook,	23	23	100	69.75
				<hr/> \$814.85

In addition to buying stamps, which is really a good investment promotive of thrift, the children responded to the call to "Earn and Give" as Victory Boys and Girls in the United War Work Campaign.

Following is the record:

	Victory Boys	Amount Pledged	Victory Girls	Amount Pledged
W. Baldwin,	6	\$7.00	6	\$9.15
Burnell,	0	0.00	3	6.00
	<hr/>	<hr/>	<hr/>	<hr/>
Total,	6	\$7.00	9	\$15.15

Some question has been raised as to the advisability of maintaining a school year of 36 weeks. This is first and last a question for citizens of Baldwin to decide.

Many towns in Maine, both rural and urban are giving their children 36 or more weeks of school per year. Your children are to go out into the world, there to compete with those from the best and most ambitious towns of Maine, Massachusetts and other states. These children are receiving six weeks more school per year than yours, or a twenty per cent. advantage.

If your boys and girls can do in thirty weeks what other boys and girls can do in thirty-six weeks then they can overcome the handicap if you place it upon them, which I am certain you will not conclude to do. It should, however, be understood that 100 per cent. results cannot be accomplished in 80 per cent. time.

The pupils of today will be the citizens of to-morrow.

Let us aid them, so far as is possible, in their preparation for shouldering the burden of life and assuming the duties of citizenship.

RECOMMENDATIONS.

Common schools,	\$2,500.00
Repairs and supplies,	1,000.00
Common school tuition,	75.00
Textbooks,	150.00

Respectfully submitted,

CELIA H. SANBORN,

Superintendent of Schools.
